Cat 3126 starting problem ... Install 10,000 psi pressure gauge into the oil rail, startup oil pressure 870 psi., engine running 3,500 psi. to 4,500 psi. Going through the above anytime there is a problem with the IAP sensor in a HEUI System the problem is leading you in another direction. Where problem is located is in the Injection actuation

#### Cat 3126 starting problem

The Caterpillar 3126 is a turbocharged 7.2L inline 6-cylinder diesel engine manufactured by Caterpillar and first introduced in 1997; it was the first electronic mid-range diesel engine that Caterpillar produced. It is the successor to the Caterpillar 3116 engine and was replaced by the Caterpillar C7 engine in 2003. It is a medium-duty engine and has been used in dump trucks, long haul trucks ...

#### Caterpillar 3126 - Wikipedia

Our older 3126 behaves the same way. The oil pressure apparently is higher at start-up because the oil is at ambient temperature and is thicker. As the oil heats up, the pressure drops. When idling after a long haul, the pressure may go way down.

#### 3126B oil pressure low - Diesel RV Club, an FMCA Chapter

In our 3126 CAT..what is acceptable oil pressure at idle and also at around 60 mph? (say 2200 RPM I think) I seem to recall that the guage on the dash stayed between 40 and 50 pounds pressure most of the time. Now it drops to around 20 pounds at idle and about 40 pounds or sometimes slightly more.
