How to multiply fractions? The first step when multiplying fractions is to multiply

Download Ebook Everyday Math 5th Grade Unit 1

the two numerators.

The second step is to multiply the two denominators. Finally, simplify the new fractions. The fractions can also be simplified before multiplying by factoring out common factors in the numerator and denominator.

Simplifying before multiplying helps avoid dealing with large numbers.

use exponents in
everyday life?

Exponents are simply a shorthand notation for multiplying the same number by itself several times - and in everyday life you just don't often need that, because it doesn't occur that often that you'd need to calculate $7 \times 7 \times 7 \times 7$ (which is 7^4) or $0.1 \times 0.1 \times 0.1 \times 0.1 \times 0.1 \dots$
