Does A Gunshot Wound To The Head Mean Instant Death?

Gunshot wounds resulted in gross tissue destruction that was an excellent medium for infection. However, because surgeons of the era had no knowledge of bacteria, they concluded infection was the result of poisonous gunpowder, and sought to destroy the poison by pouring boiling oil into the wound [116].

Treatment of War Wounds: A Historical Review

Injury was founded in 1969 and is an international journal dealing with all aspects of trauma care and accident surgery.
