Efficient code generation, better diagnostics, and faster feature development, coupled with Arm's compiler backend expertise, make LLVM the natural choice for the next generation of Arm Compiler. Arm Compiler 6 makes use of Clang for the compiler front-end, whilst also retaining familiar sub-tools such as armasm, armlink, armar and fromelf.

I believe the software I am looking for is called DigitalPersona Fingerprint Software v6.X but the links on the official Dell page are not working (the website www.digitalpersona.com is not accessible). There are also download links of v6.2.1.309 in a post from 2012, but also not working. Are there any working mirror links for this software?

The first 2003 Honda Accord rolled off the Marysville, Ohio assembly line on September 26, 2002. A larger car than its predecessor, the North American Accord was given a new level of refinement with chrome interior accents and higher-grade materials. The lineup still included all the same trim levels as the previous generation, the DX, LX, EX, LX-V6 and EX-V6.
