### Skills For Care Common Induction

The Care Certificate is an agreed set of standards that define the knowledge, skills and behaviours expected of specific job roles in the health and social care sectors. The Care Certificate is made up of the 15 minimum standards that should be covered if you are 'new to care' and should form part of a robust induction programme.

One of the critical differences between the Care Certificate and the Common Induction Standards, and something that is included in the legislation, is the principle of competence. It is no longer about what training courses people have attended - it is about their day-to-day practice and making sure that their practice is safe.

2. Planning and Delivery Skills. While it is important to be personally organised and motivated as a leader—and see our pages on Time Management and Self-Motivation for more about these areas—it is perhaps even more important to be able to plan and deliver for the organisation.. These areas are key management skills, but the best leaders will also be able to turn their hand to these.
